

General stair graphic recommendations:

1. Use large elements of imagery and /or text to be most effective.
2. Avoid complex messaging and small text.
3. If the use of smaller text is unavoidable, try to contain it within a 6-1/2" riser height so it will not be split by the risers.
4. Try to make the graphic elements large enough to span a minimum of 3 risers to take advantage of the stair effect.
5. Avoid bridging the landing with anything but the largest graphic elements to prevent distortion between stair flights.

N-S OCCC Stair Graphic Specifications

- Upper Level = 18 Stair risers 6-1/2" H
- Lower Level = 17 Stair risers 6-1/2" H

Project:
N-S OCCC Stair Graphics

Show Name:

Show Dates:
9/21/2009 through 9/21/2009

Show Location:
OCCC N-S Building

Producing City:
Orlando

Account Executive:

Project Number:

Created By:
Steve Garber

Creation Date:
9/30/2009

Revised:
9/30/2009
