## YUPO® Tako

The best ideas just stick.

Tako means octopus in Japanese. You can see why this reusable no-adhesive synthetic paper sticks to so many surfaces. It sticks to any smooth, flat surface and removes for reuse over and over again.

YUPO® has created this material using synthetic paper and added micro-suction cups to the backside. These tiny suction cups grip any flat, smooth surface just like an octopus.

### Recommended Applications:

- Table & counter tops
- Temporary floor use
- Smooth walls
- Glass, Sintra & acrylic
- PVC & aluminum
- Point-of-purchase
- Directional signs
- And more . . .

### Advantages:

- Waterproof
- Tear resistant
- Wipes clean with a damp cloth
- No shrinking, bubbling or stretching
- No magnets or static, so it's safe to use on electrical surfaces
- Unparalleled durability
- No messy residue
- Long storage life
- Remove & reapply many times
